Re: Presidential search update

The Presidential Search Committee held its most recent meeting on Monday, January 30. Dr. Chuck Taylor of Diversified Search participated, along with our two colleagues from SUNY Systems Administration. During that session, the group selected seven strong candidates for the next round of consideration.

This next round will occur on Thursday and Friday, February 9 and 10, when each candidate will meet with the full committee via Skype for a 90-minute interview. The committee will reconvene on Monday, February 13 to determine which three to four of the candidates will be invited to campus during March for a two-day process to meet with members of the College community and to interview with the entire Board of Trustees.

As always, I will keep you informed as the process moves forward.
